

Webcam

User's Guide for Model IWC180 v2601-01

Overview & Features

1. Connect the camera USB plug into one of the USB 2.0 or 3.0 ports and the 3.5mm Audio Plug into the microphone input of a powered on computer. Note: When using a laptop, it is not necessary to use the 3.5mm Audio Plug, only the camera USB needs to be plugged in to operate the webcam.
2. The camera will automatically install itself and may require a few minutes before it is ready to be used.
3. Once the camera has finished installing, it is ready to be used. Note: To check if the camera is installed correctly, you may check under: **Control Panel> Hardware and Sound> Device Manager**.
4. The webcam may be used with video applications, such as Skype, ZOOM, Google Hangout, etc.

Note: **All video calling applications have an option to select what device you want to capture audio and video from.** To capture audio and video from this webcam select USB 2.0 camera. The audio and video will now be captured from the webcam.

Using the Camera Mount

1. To mount the webcam onto the monitor of your computer, make sure the front edge of the camera mount and the monitor are flush.

2. Use the adjustable tail end to secure the camera on the back of the monitor, as shown in the figure.

FCC Warnings

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Additional Warnings

- **WARNING:** To prevent fire or shock hazards, do not expose this unit to rain or moisture.
- **WARNING :** Where the mains plug or appliance coupler is used as the disconnect device, such disconnect device shall remain readily operable.
- Lithium batteries, like all rechargeable batteries, are recyclable and should be recycled or disposed of according to state and local guidelines. They should never be disposed of in normal household waste, and they should never be incinerated, as they might explode. Contact your local government for disposal or recycling practices in your area.
- This product meets and complies with all Federal regulations.
- **To avoid hearing damage,** make sure that the volume on your music player is turned down before connecting your headphones. After placing headphones in/on your ears, gradually turn up the volume until you reach a comfortable listening level.
