

LED Light Strip

User's Guide for Model IAT61 v2797-01

Features

- Length: 6.5 ft/2M
- Width: .4 in/10mm
- 32 LEDs total (5050 RGB LED)
- 5V USB power input
- Self adhesive, double sided backing

Includes

- USB cable with built-in remote receiver
- Remote control with CR 2025 battery included

Installation

1. Clean the surface to which you're going to attach the light strip. The example shown below represents the back of a TV or computer monitor.
2. Peel the backing strip off the adhesive tape on the LED strip.
3. Press and hold the LED strip to the surface.
4. Connect the USB cable to a USB port on the TV or monitor, or a USB power adapter (not Included).
5. Use the remote to change LED color, brightness, and flash settings.

- The remote receiver does not need to be visible or have direct line of sight with the remote, and can be fully hidden behind your TV, monitor, etc.
- You may cut the strip to fit smaller areas. Using scissors, cut on the visible line between LEDs.
