Bluetooth Buddy Wireless Speaker

User's Guide for Model ISB485

FCC Warnings

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Additional Warnings and Precautions

- Lithium batteries, like all rechargeable batteries, are recyclable and should be recycled or disposed of according to state and local guidelines. They should never be disposed of in normal household waste, and they should never be incinerated, as they might explode. Contact your local government for disposal or recycling practices in your area.
- Battery shall not be exposed to excessive heat such as sunshine, fire or the like.
- Batteries should be recycled or disposed of as per state and local guidelines.
- **This product contains sensitive electronic components, and should not be handled as a toy.**
- **Machine washing is not recommended for this product.**
FEATURES & CONTROLS

FEATURES

Solid Red: Battery Charging
No Light: Full Charge

POWER & CHARGING

*Requires a Micro-USB to USB cable (included).*
When the unit is charging, the **LED indicator** on the front of the unit **will display solid red.** When the unit is fully charged, the **LED indicator will turn off.**

1. Using a Micro-USB to USB cable (included), connect the larger **USB plug** to the **USB port** of a powered on computer or USB power adaptor (included).

2. Connect the smaller **Micro-USB plug** into the **Micro-USB port** of the unit. The unit will now charge.

   Note: *Be sure the computer is not in sleep mode.*

Use AC/DC Power Adapter to Charge

Use PC to Charge

BLUETOOTH

Pairing to a Device and Playing Audio

1. Power on the unit by sliding the **Power Switch** on the rear to the **ON** position.

2. This unit's default mode after being powered on is **Bluetooth Mode**. *This is indicated by a flashing blue LED light on the front of the unit.*

3. Press and hold the **Pair** button. *The blue LED light will begin to flash quickly. When pairing, remain within 3 feet of the unit.*

4. Using the controls on your Bluetooth device, scan for and select **ISB485** in your Bluetooth settings to pair. If your device requests a password, enter the default password **0 0 0 0** . *Refer to the user's manual for your specific device for instructions on pairing and connecting Bluetooth devices.*

5. When successfully paired, the **blue LED light** will turn solid.

6. Use the controls on the connected device or the unit to select and play audio, and adjust the volume.

7. Audio played through the connected Bluetooth device will now be heard through the speaker.
   After initial pairing, the unit will stay paired unless unpaired manually by the user or erased due to a reset of the device. If your device should become unpaired or you find it is unable to connect, repeat the above steps.

AUX IN

Using Aux In (3.5mm Audio Input)

Requires a 3.5mm audio cable (included).

1. Connect a 3.5mm audio cable to the **Aux In Input** on the rear of the unit and the **audio output/headphone jack** on a media player.

2. The unit will automatically detect the input and switch to **Aux In Mode**. *This is indicated by a solid blue LED light on the front of the unit.*

3. Use the controls on the connected device or the unit to select and play audio, and adjust the volume.
